If the expense incurred by the City shall exceed such unpaid balance, the Contractor shall pay the difference to the City. The expense incurred by the City as herein provided, either for furnishing materials or for finishing the work, and any damage incurred through such default, shall be audited and certified by the Engineers, whose certificate thereof shall be conclusive on the parties hereto.

No such allowance shall be made unless a claim therefore is presented in writing to the Engineers and to the City within twenty four (24) hours of the occurrence of such delay, and in no event shall the Contractor have any claim against the City for damages on account of any such delay in the completion of the work.

ARTICLE XIII

All materials used shall be of the best quality of their respective kinds, and all the work performed shall be executed in the most skillful and workmanlike manner, and both materials used and work performed shall be in every respect to the entire and complete satisfaction of the Engineers.

Said payment shall be subject to the provisions of Massachusetts General Laws chapter 30, section 39K as follows: within fifteen (15) days after receipt from the contractor, at the place designated by the Awarding Authority if such a place is so designated, of a periodic estimate requesting payment

of the amount due for the preceding month, the Awarding Authority will make a periodic payment to the Contractor for the work performed during the preceding month and for the materials not incorporated in the work but delivered and suitably stored at the site (or at some location agreed upon in writing) to which the Contractor has title or to which a subcontractor has title and has authorized the Contractor to transfer title to the Awarding Authority, less:

1. A retention based on its estimate of the fair value of its claims against the contractor; and less
2. A retention for direct payment to subcontractor based on demands for same accordance with the provisions of section thirty nine F, Chapter 30; and less
3. A retention not exceeding five (5%) percent of the approved amount of the periodic payment.

After the receipt of a periodic estimate requesting final payment and within sixty five (65) days after (a) the Contractor fully completes the work or substantially completes the work so the value of the work remaining to be done is, in the estimate of the Awarding Authority, less than one (1%) percent of the original price, (b) the Contractor substantially completes the work and the Awarding Authority takes possession for occupancy, whichever occurs first, the Awarding Authority shall pay the Contractor the entire balance due on the contract, less:

1. A retention based on its estimate of the fair value of its claims against the Contractor and the cost of completing the incomplete and unsatisfactory items of work; and less

A retention for direct payments to subcontractors based on demands for same in accordance with the provisions of section thirty nine F or based on the record of payments by the contractor to the subcontractors under this contract of such record if payment indicates that the contractor has not paid subcontractors as provided thirty nine F.

If the Awarding Authority fails to make payments as herein provided there shall be added to each such payment daily interest at the rate of three (3%) percentage points above the rediscount rate then charged by the Federal Reserve Bank of Boston commencing on the first day after said payment is due and continuing until the payment is delivered or mailed to the Contractor; provided, that no interest shall be due in any event, on the amount due on a periodic estimate for final payment until fifteen (15) days (twenty four (24) days in the case of the Commonwealth) after receipt of such a periodic estimate from the Contractor, at the place designated by the Awarding Authority if such place is so designated. The Contractor agrees to pay to each Subcontractor a portion of any such interest paid in accordance with the amount due each Subcontractor. The Awarding Authority may make changes in any periodic estimated submitted by the Contractor and the payment due on said periodic estimate shall be computed in accordance with the changes so made, but such changes or any requirement for a corrected periodic estimate shall not affect the due date for the periodic payment or the date for the commencement of interest charges on the amount of the periodic payment computed in accordance with the changes made as provided herein; provided, that the Awarding Authority may, within seven (7) days after receipt, return to the Contractor for correction, any periodic estimate which is not in the required form or which contains computations not arithmetically correct and in that event the date of receipt of such periodic estimate shall be the date of the corrected periodic estimate in proper form and with arithmetically correct computations. The date of receipt of a periodic estimate received on a Saturday shall be the first working date thereafter. The provisions of section thirty-nine G. shall not apply to any contract for the construction, reconstruction, alteration, remodeling, repair, or demolition of any public building to which this section applies.

All periodic estimates shall be submitted to the Awarding Authority or to its designee as set forth in writing to the Contractor, and the date of receipt by the Awarding Authority or its designee shall be marked on the estimate. All periodic estimates shall contain a separate item for each filed sub trade and a column listing the amount paid to each filed subcontractor as of the date the periodic estimate

The person making payment for the Awarding Authority shall add the daily interest provided for herein to each payment for each day beyond the due date based on the date of receipt marked on the estimate. A certificate of the Engineers to the effect that the Contractor has fully or substantially completed the work shall, subject to the provisions of section 39 J. be conclusive for the purpose of this section.

ARTICLE XVI (Section 39F, C. 30 M.G.L.)

- A. Forthwith after the General Contractor receives payment on account of a periodic estimate, the General Contractor shall pay to each Subcontractor the amount paid for the labor performed and materials furnished by that subcontractor, less any amount specified in any court proceedings barring such payment and also less any amount claimed due from the Subcontractor by the General Contractor.
- B. Not later than the sixty fifth (65) day after each Sub-Contractor substantially completes his work in accordance with the plans and specifications, the entire balance due under the Sub-Contractor less amounts retained by the awarding authority as the estimated cost of completing the incomplete and unsatisfactory items of work shall be due the Sub-Contractor; and the Awarding Authority shall pay that amount to the general Contractor. The General contractor shall forthwith pay to the Sub-Contractor the full amount received from the Awarding Authority less any amount specified in any court proceedings barring such payment and also less any amount claimed due from the Sub-Contractor by the General Contractor.
- C. Each payment made by the Awarding Authority to the General Contractor pursuant to subparagraphs A. and B. of this paragraph for the labor performed and the materials furnished by a Subcontractor shall be made to the General Contractor for the account of that Subcontractor; and the Awarding Authority shall take reasonable steps to compel the General Contractor to make such payment to each Subcontractor. If the Awarding Authority has received a demand for direct payment from a Sub-Contractor for any amount which has already been included in a payment to the General Contractor for payment to the Sub-Contractor as provided in subparagraphs (a) and (b), the Awarding Authority shall act upon the demand as provided in this Section.
- D. If, within seventy (70) days after the Sub-Contractor has substantially completed the subcontract work, the Sub-contractor has not received from the General Contractor the balance due under the subcontract including any amount due for extra labor and materials furnished to the General Contractor, less any amount retained by the Awarding Authority as the estimated cost of completing the incomplete and unsatisfactory items of work, the Sub-Contractor may demand direct payment of that balance from the Awarding Authority. The demand shall be by a sworn statement delivered to or sent by certified mail to the Awarding Authority and a copy shall be delivered to or sent by certified mail to the General Contractor at the same time. The demand shall contain a detailed breakdown of the balance due under the subcontract and also a statement of the status of completion of the subcontract work. Any demand made after substantial completion of the subcontract work shall be valid even if delivered or mailed prior to the seventieth (70) day after the Sub-Contractor has substantially completed the subcontract work. Within (10) days after the Sub-Contractor has delivered or so mailed the demand to the Awarding Authority and delivered or so mailed a copy to the General Contractor, the General Contractor may reply to the demand. The reply shall be sworn statement delivered or sent by certified mail to the Awarding Authority and a copy shall be delivered to or sent by certified mail to the Sub-Contractor at the same time. The reply shall contain a detailed breakdown of the balance due under the subcontract including any amount for extra labor and materials to the General Contractor and of the amount due for each claim by the General Contractor and of the amount due for each claim made by the General Contractor against the Sub-Contractor.

- E. Within fifteen (15) days after receipt of the demand by the Awarding Authority, but in no event prior to the seventieth (70) day after substantial completion of the subcontract work, the Awarding Authority shall make direct payment to the sub-contractor of the balance due under the subcontract including any amount due for extra labor and materials furnished to the General Contractor, less any amount (1) retained by the Awarding Authority as the estimated cost of completing the incomplete or unsatisfactory items of work; (2) specified in any court proceedings barring such payment; or (3) disputed by the General Contractor in the sworn reply; provided that the Awarding Authority shall not deduct from a direct payment any amount as provided in part (3) if the reply is not sworn to, or for which the sworn reply does not contain the detailed breakdown required by paragraph D, above. The Awarding Authority shall make further direct payments to the Sub-Contractor forthwith after the removal of the basis for deductions from direct payments made as provided in parts (1) and (2) of this subparagraph.
- F. The Awarding Authority shall forthwith deposit the amount deducted from a direct payment as provided in part (3) of subparagraph E. above in an interest-bearing joint account in the names of the General Contractor and the Sub-Contractor in a bank in Massachusetts selected by the Awarding Authority or agreed upon by the General Contractor and the Sub-Contractor and shall notify the General Contractor and the Sub-Contractor of the date of the deposit and the bank receiving the deposit. The bank shall pay the amount in the account, including accrued interest, as provided in an agreement between the General Contractor and the Sub-Contractor or as determined by decree of a court of competent jurisdiction.
- G. All direct payments and all deductions from demands for direct payments deposited in an interest-bearing account in a bank pursuant to subparagraph F shall be made out of accounts payable to the General Contractor at the time of receipt of a demand for direct payment from a Sub-Contractor and out of amounts which later become payable to the General Contractor and in the order of receipt of such demands from Sub-Contractors. All direct payments shall discharge the obligation of the Awarding Authority to the General Contractor to the extent of such payment.
- H. The Awarding Authority shall deduct from payments to a General Contractor amounts which, together with the deposits in interest bearing accounts pursuant to subparagraph F, are sufficient to satisfy all unpaid balances of demands for direct payments, and the Sub-Contractor shall have a right in such deductions prior to any claims against such amount by creditors of the General Contractor.
- I. If the Sub-Contractor does not receive payment as provided in subparagraph A or if the General Contractor does not submit a periodic estimate for the value of the labor or materials performed or furnished by the Sub-Contractor and the Sub-Contractor does not receive payment for same when due less the deductions provided for in subparagraph A, the Sub-Contractor may demand direct payment by following the procedure in subparagraph D, and the General Contractor may file a sworn reply as provided in that same paragraph. A demand made after the first day of the month following that for which the Sub-Contractor performed or furnished the labor and materials for which the Sub-Contractor seeks payment shall be valid even if delivered or mailed prior to the time payment was due on a periodic estimate from the General Contractor. Thereafter the awarding Authority shall proceed as provided in subparagraphs E, F, G, and H.

ARTICLE XVII (Section 39N, C. 30 M.G.L.)

If during the progress of the work, the contractor or the Awarding Authority discovers that the actual sub surface or latent physical conditions encountered at the site differ substantially or materially from those shown on the plans or indicated in the contract documents either the Contractor or the Contracting Authority may request an equitable adjustment in the contract price of the contract applying to work affected by the differing site conditions.

A request for such an adjustment shall be in writing and shall be delivered by the party making such claims to the other party as soon as possible after such conditions are discovered. Upon receipt of such a claim from a Contractor or upon its own initiative, the Contracting Authority shall make an investigation of such physical conditions, and, if they differ substantially or materially from those shown on the plans or indicate in the contract documents or from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the plans and contract documents and are of such a nature as to cause an increase or decrease in the cost of performance or the work or a change in the construction methods required for the performance of the work which results in an increase or decrease in the cost of the work, the Contracting Authority shall make an equitable adjustment in the contract price and the contract shall be modified in writing accordingly.

ARTICLE XVIII (Section 39O, C. 30 M.G.L.)

- A. The Awarding Authority may order the General Contractor in writing to suspend, delay, or interrupt all or any part of the work for such period of time as it may determine to be appropriate for the convenience of the Awarding Authority; provided, however, that if there is a suspension, delay or interruption for fifteen (15) days or more due to a failure of the Awarding Authority to act within the time specified in this contract the Awarding Authority shall make an adjustment in this contract price for any increase in the cost of performance of this contract but shall not include any profit to General Contractor on such increase; and provided further, that the Awarding Authority shall not make any adjustment in the contract price under this provision for any suspension, delay interruption or failure to act to the extent that such is due to any cause for which this contract provides for an equitable adjustment of the contract price under any other contract provisions.
- B. The General Contractor must submit the amount of a claim under provisions (A) to the Awarding Authority in writing as soon as practicable after the end of the suspension, delay, interruption or failure to act and, in any event not later than the date of final payment under this contract and except for costs due to a suspension order, the Awarding Authority shall not approve any costs in the claim incurred more than twenty (20) days before the General Contractor notified the Awarding Authority in writing of the act or failure to act involved in the claim.

ARTICLE XIX

No certificate given or payment made under this contract, except the final certificate or final payment, shall be evidence of the performance of this contract, either wholly or in part, or be construed as a waiver of the right of the City either to reject any defective work or material or to require the fulfillment of any of the terms of the contract; and such final certificate or final payment shall not prevent a recovery by the City.

ARTICLE XX

The Contractor shall pay to the City all expenses, losses and damages incurred in consequence of any defect, omission or mistake of the Contractor or the Contractor's Sub-Contractors or the Contractor's employees; and any defects which may appear within twelve (12) months from the completion of the contract due to defective or improper materials or workmanship, shall upon request in writing, be immediately remedied and made good by the Contractor at the Contractor's own costs; and in case of default, the City may recover the cost of making good the same from the Contractor and from the sureties on the bond given to secure the performance of this contract. If the Contractor in the performance of said contract shall either depart from the original plans or substitute any other materials for a material named in the original specifications, by whomsoever the Contract may have been directed to make such departure or substitution the Contractor shall be responsible for any damage resulting therefrom to the City and shall reimburse the City thereof.

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
- I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 4.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

Hi Everyone,

New England Concrete was the awarded vendor for renovations to Nathan Bill Park he just called and sent the attached saying he has an agreement with a financial service where the City will pay "Great Horn Financial Services" directly instead of paying NE concrete. Is this okay? I just don't know how to make this possible in MUNIS
